

Summer Internship Programs

Students interested in learning more about science related careers should see Mrs. Carter in the guidance office regarding University of Illinois' Research Apprentices Program. Interested students may also refer to the posted just outside the guidance office for additional information.

Attention sophomores and juniors interested in science and engineering. The **Target: Science and Engineering Program** is offering a paid, non-residential summer internship opportunity. Please see Mrs. Carter for details and refer to the poster outside the guidance office.

Wheaton College is offering its four week summer: on campus BRIDGE program to current sophomores who are interested in developing their writing and critical thinking skills. This is a free program with opportunities for college scholarships. Interested students should see Mrs. Carter for details and refer to the poster outside the guidance office.

Attention juniors and seniors, if you are committed to making a positive impact in your community, Bank of America can help. They are offering a week long summit in Washington, D.C. and an eight-week paid summer internship at a local nonprofit organization. Interested students should see Mrs. Carter for details in room 219 or refer to the poster located on the bulletin board outside the Guidance Office. The deadline to apply is January 25, 2012.
